

SKDP – Eircode Community Outreach

To Community Groups in SKDP area;

South Kerry Development Partnership has been awarded the Eircode Community Outreach contract for the South Kerry Area; Eircode is the name of the Postal Code system about to be introduced nationally. This postcode will make delivery of goods and services easier, and most importantly it will ensure emergency services can reach an address promptly without confusion.

Sometimes change can leave certain groups behind - this programme aims to work closely with group leaders, committee members, volunteers and staff in community and voluntary organisations so that they in turn can explain the post code to the people who use their centres and services, older family members, etc. The principle being that people will better understand the message from people they know and trust.

I am implementing this programme on behalf of SKDP and I am looking for an opportunity to make a short presentation, distribute leaflets etc to your committee, volunteers, staff etc. You may have a regular meeting or a scheduled event coming up that I could attend. Also, local community information meetings can be organised at which members of various groups and centres could attend.

Please contact me to arrange a time and a date

Yours sincerely

Paul O'Raw
